ABOUT ME

I have worked as a cinematographer for over 15 years, within film and television production. In 2021 I decided to start studying frontend design. Today I am studying UX/UI with Frontend competence at Chas Academy. Combining my creative experience with photography and design with web design is extremely exciting. Running my own company as a freelancer has taught me how to communicate with clients, lead teams and to work multiple projects under pressure. Growing up in the UK I moved to Sweden in 2001 I am fluent in both English and Swedish.

CARACTERISTICS

SKILLS AND TOOLS

Calm • Methodical • Willpower • Positive •
Social • Entrepreneurial • Action oriented •
Creative

html • css • javascript • jQuery • jQuery
animation • Studio Visual Code • Adobe
